

JD+ 3.0

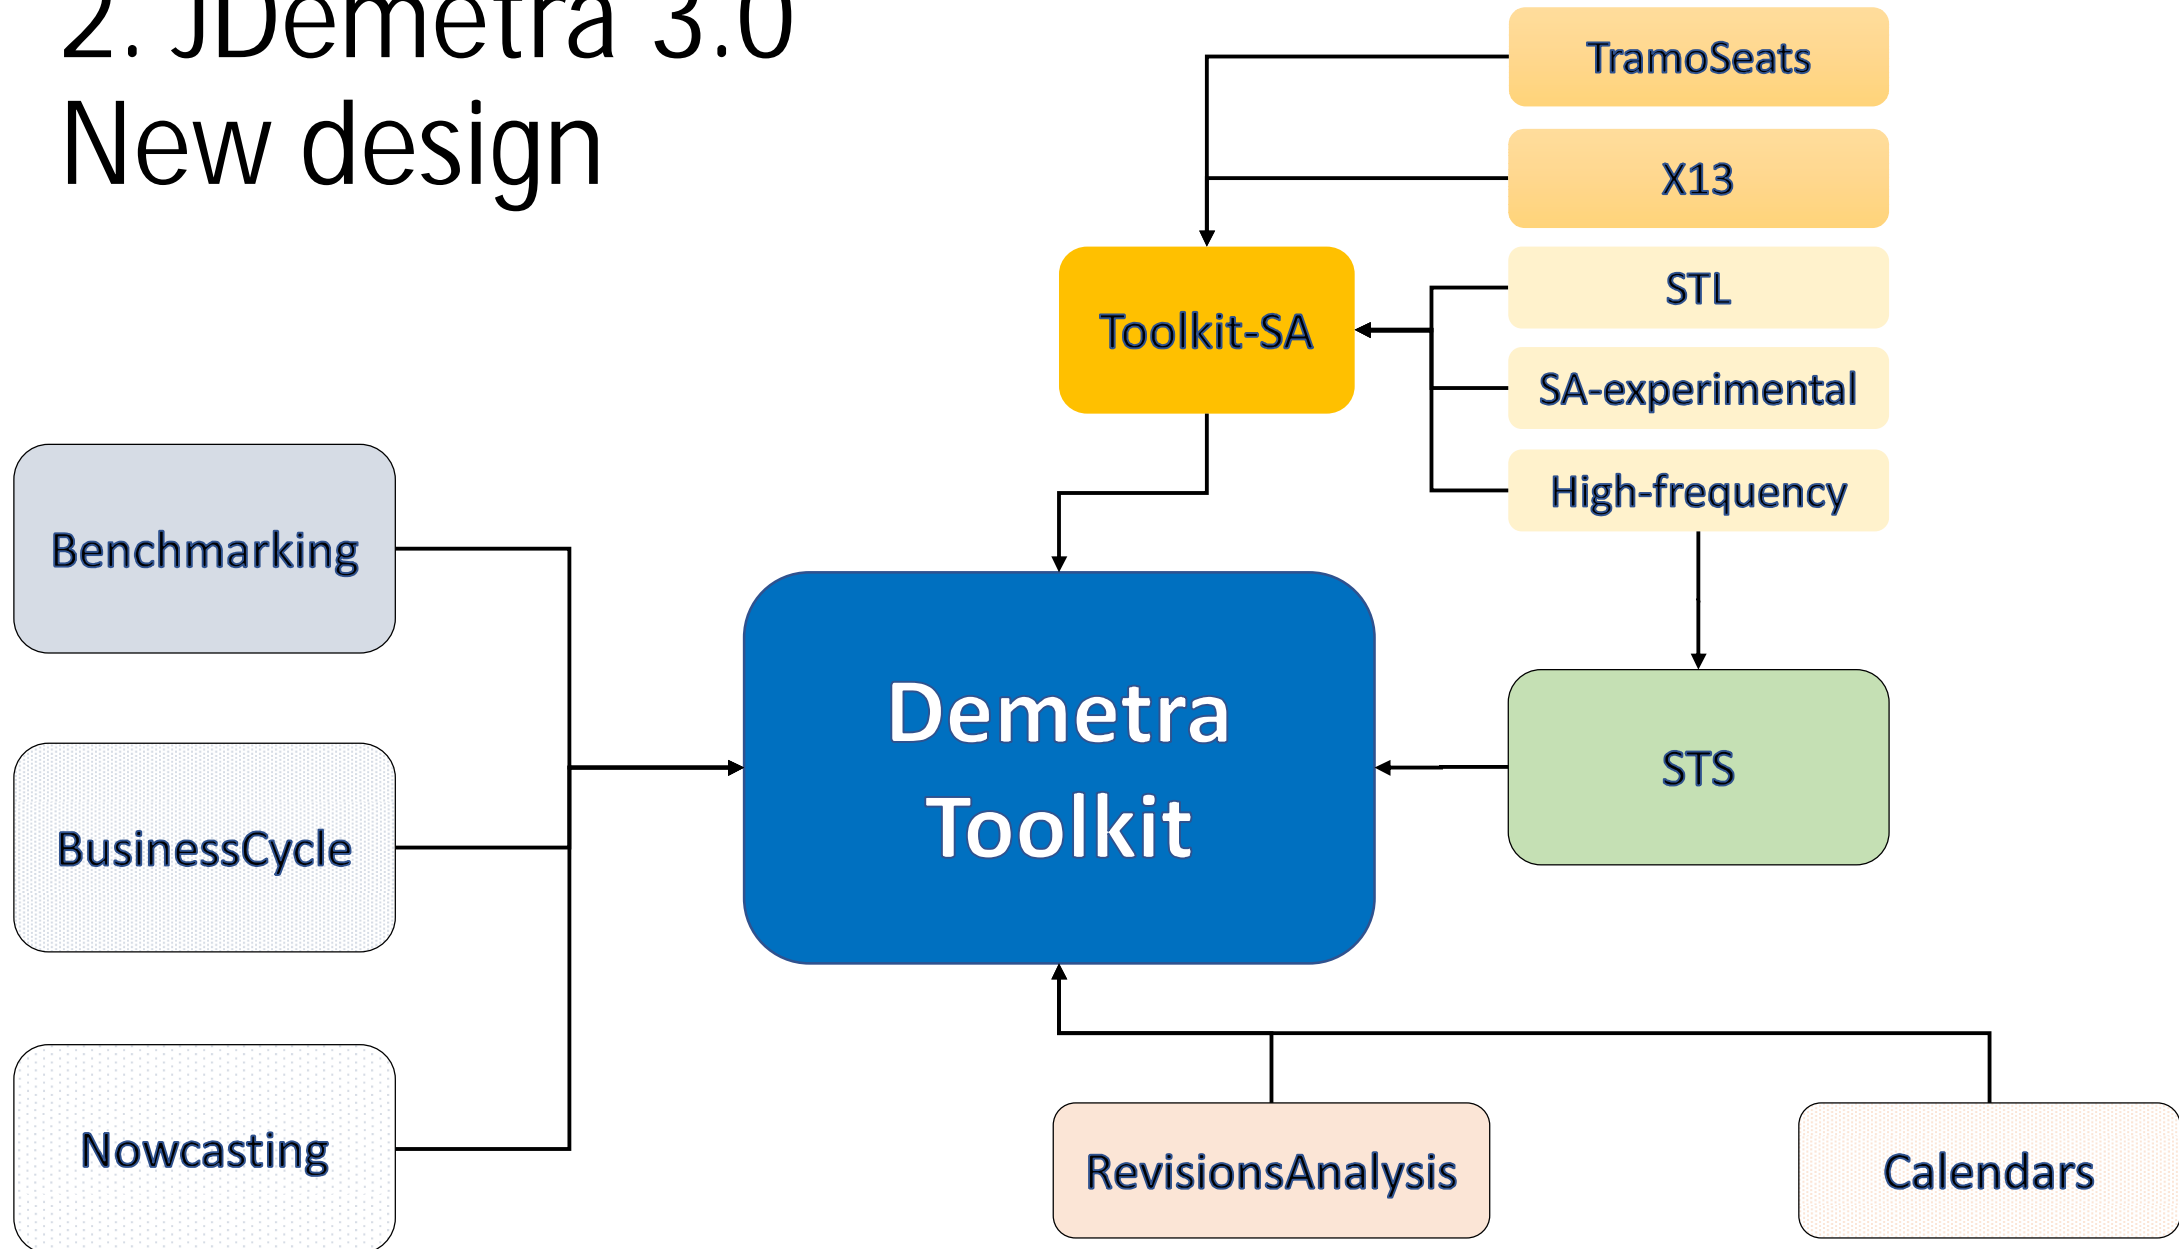

Core algorithms

ESTP Training

1. What's new in JD+ 3.0?

- Additional time series domains
 - New concepts
- Design
 - API / implementation / IO
- New algorithms
- Enhanced interaction with external tools/technologies
 - New R packages

2. JDemetra 3.0 New design

2. JDemetra 3: new design

- Jdplus-main
 - Base
 - Toolkit / Sa / TramoSeats / X13 / Ts providers
 - API / Core / R / Protobuf ...
 - Cli (cruncher...)
 - Desktop (GUI)
- Jdplus-incubator
 - STL, STS, high-frequency...
- Jdplus-experimental
- Jdplus-benchmarking / jdplus-nowcasting / jdplus-revisions...
